Treasurers Report

Over the accounting period 01/03/20 to 28/02/21, the space earnt 58% of the previous year's income (£2,151.00 less earnt), but was in turn met with 36% of last years expenses (£1,972.98 less paid). These are largely due to (1) a decreasing paying membership and (2) a postponed electric bill. A fixed outstanding electric bill over the entire account period is yet to be passed on to the space. It is estimated to be £800.

Based over the last 6 months of the accounting period these books represent, our average expenditure decreased to an average £2.33/mnth and our average income averaged £226/mnth, maintaining our month-on-month surplus. Overall, member donations have remained disproportionately strong relative to paying member loss, with 114% of last year's member donations received (with thanks.)

As of Monday 3rd May 2021, the bank account stands at £4,755.24. After paying the pending bill for 4 quarters of electric (due later this month), the account will stand at £3,955.24

In summary, over the COVID period the space's income has fallen by roughly half but our surplus remains growing thanks to low living costs and member donations.
